

# Erik Rodriguez

## Software Engineer

Location  
Hemet, California  
Email  
[perhapserik@gmail.com](mailto:perhapserik@gmail.com)  
Artifacts LinkTree  
[linktr.ee/perhapserik](https://linktr.ee/perhapserik)

Skills	C#, Kusto, HTML, CSS, JavaScript, LESS/SASS, React, Redux, Node, Express, SQLite, Postman, Python	
Experience	<i>Microsoft   Remote</i>	Feb 2022 - Present
	<b>Software Engineer</b>	
	<ul style="list-style-type: none"><li>• Delivered an internal tool for Azure Service Fabric that enabled engineers to diagnose customer problems more quickly, and visualized data to gain a better understanding of service status</li><li>• Published detectors on Azure Portal that help customers identify and solve Azure Service Fabric related issues</li><li>• Collaborated via Azure DevOps in an agile workflow to track completed work items for sprints</li></ul>	
	<i>BloomTech aka Lambda School   Remote</i>	Apr 2020 - May 2020
	<b>Labs Apprenticeship</b>	
	<ul style="list-style-type: none"><li>• Participated in Lambda Labs Apprenticeship, where I contributed in remote teams to a real-world project called SignLingo. Three teams pushed SignLingo from idea to reality. Link to submitted <a href="#">video presentation</a></li></ul>	
	<i>StockX   Self Employed, Remote</i>	Jan 2017 - Dec 2020
	<b>Reseller</b>	
	<ul style="list-style-type: none"><li>• Sold brand-name men's clothing, hard-to-find sneakers, art, and accessories</li></ul>	
	<i>US Army   Fort Campbell, Kentucky</i>	Aug 2015 - Jan 2017
	<b>Infantryman</b>	
	<ul style="list-style-type: none"><li>• Prepared mentally/physically for extreme environments and combat</li><li>• Diagnosed company humvees through monthly checks in order to minimize maintenance and reduce operations cost for the military</li><li>• Coordinated with a team of 19 to construct a bunker, task was completed 7 days ahead of schedule</li></ul>	
Projects	<a href="#"><u>SignLingo</u></a>	React   Redux   SASS   Node   AWS   Trello
	<b>A mobile-first web application where users learn sign language through gamification</b>	
	<ul style="list-style-type: none"><li>• Worked on a remote team of 6 (1 UX/UI, 5 Devs) over 8 weeks</li><li>• Built to the specifications of the stakeholder, delivering a mobile web app with learning model and gamified lessons</li><li>• Owned Redux implementation from creating store, action creators, reducers, and maintained all state data across the web app.</li><li>• Integrated Code Climate tool into the repository to ensure quality of code</li></ul>	
	<a href="#"><u>Anime Archive</u></a>	React   CSS   GraphQL   Trello   Figma
	<b>A mobile, web-based, online database of information related to anime</b>	
	<ul style="list-style-type: none"><li>• Aided in designing a modern, user-friendly mobile web application using Figma</li><li>• Balanced workload of managing tasks and researching to communicate to an open source GraphQL API for data</li><li>• Applied reusable components throughout the application to minimize and simplify code maintenance</li></ul>	
	<i>BloomTech aka Lambda School   Remote</i>	Dec 2019 - Oct 2020
	<b><u>Full Stack Web Development &amp; Computer Science</u></b>
